

Houston

Basal cell skin cancer on nose -- emergency room event due to severe fire ant bites -- foot cast to aid healing of diabetic ulcer -- first knee replacement surgery -- foot surgery -- eyelid surgery -- 2nd knee replacement -- foot in cast again, diabetic ulcer -- MERSA infection leading to foot surgery, resulting in loss of a toe followed by a month in a wheel chair during healing -- ALL during my 66th year.

And, you know how I kept my JOY through it all? Prayer from friends, Sunday School, Church, Family, "Iron Men", Small group, CIP.

I have been so blessed to see and receive God's healing first hand. I am thankful for dedicated doctors and all who assisted them. I am thankful for faithful family and friends. Most of all, I am thankful that God used all these people to minister to me, pray for me, and encourage me.

We can do ALL things through Christ Jesus! AMEN and AMEN.
